## Half Year Financial Statement Announcement for the period ended 30 June 2017

A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following: (a) any significant factors that affected the turnover, costs and earnings of the group for the current financial period reported on, including (where applicable) seasonal cyclical factors and (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on

#### **Background**

The Company and its subsidiaries (the "**Group**") remain focused on its core business in the provision of financing services (the "**Financing Business**") in the Peoples' Republic of China ("**PRC**"), the Hong Kong Special Administrative Region (the "**HKSAR**") and Australia. Under the Financing Business, the Group's business activities are principally the provision of mezzanine loans and investments in companies with good fundamentals and growth potential. The Group also invests in short term financial instruments using cash on hand pending loan disbursement under its Financing Business as and when opportunities arise (the "**Investments**").

#### Consolidated statement of comprehensive income

The Group recorded lower revenue of HK\$6.7 million in the six months ended 30 June 2017 ("HY2017"), as compared to HK\$10.6 million in the six months ended 30 June 2016 ("HY2016") due mainly to lower interest income from the Group's loan portfolio in Australia. There is no interest income from a Borrower who has been placed under receivership in November 2016, of which the Group has entered into a settlement agreement with the underwriter on 31 December 2016 to recover the remaining net carrying value of the related principal and guaranteed 12% interest receivable from the underwriter.

Other income refers mainly to foreign exchange fluctuations from the revaluation of the Group's loan portfolio dominated in Australian Dollars ("A\$"). Foreign exchange gain increased by HK\$4.7 million to HK\$6.7 million in HY2017 due to the appreciation of A\$ against HK\$.

Total operating expenses of the Group (comprising marketing and distribution costs and administrative expenses) was HK\$0.6 million or 17% lower at HK\$2.7 million in HY2017, as compared to the total operating expenses of HK\$3.3 million in HY2016 mainly due to reversal of over accrual of certain expenses in prior years.

Other expenses of HK\$2.4 million in HY2016 refer mainly to the provision of impairment on other receivables. The provision was made in respect of the portion of the interest which was not guaranteed by the underwriter in view of the global weakness in commodities prices which resulted in massive slowdown in the mining activities in Northern part of Western Australia. There was no such provision for HY2017.

The Group's income tax expense of HK\$0.5 million in HY2017 relates mainly to the withholding tax payable on the interest income from the loans extended to the Australian companies. Despite lower interest income in HY2017, the income tax expense in HY2017 was comparable to that in HY2016 due to the write back of withholding tax provision in the preceding period.

As a result of the foregoing, the Group reported a higher net profit of HK\$10.2 million in HY2017 as compared to a net profit of HK\$6.4 million in HY2016.

### Half Year Financial Statement Announcement for the period ended 30 June 2017

#### Consolidated statements of financial position

The Group's available-for-sale financial assets ("**AFS**") relate to the Group's investment of HK\$20.0 million by way of preference shares in the capital of customers, and were reflected at a fair value of HK\$25.9 million as at 30 June 2017, based on the valuation provided by an independent valuer.

The Group's total loans and advances, mainly to customers in Australia and the PRC, amounted to HK\$103.2 million as at 30 June 2017, all of which are current. The Group's loan portfolio at HK\$103.2 million, mainly denominated in A\$, was higher as at 30 June 2017 compared to HK\$100.5 million as at 31 December 2016, mainly due to higher loan amount in HK\$ as a result of the appreciation of A\$ against HK\$, partially offset by loan repayment by borrower / underwriter.

The Group's other receivables as at 30 June 2017 consisted mainly of interest and dividend income receivables. The Group's other receivables were higher at HK\$39.7 million as at 30 June 2017 (including a provision for impairment of HK\$12.9 million) as compared to HK\$35.4 million as at 31 December 2016 (including a provision for impairment of 12.0 million) mainly because the interest receivables of certain loans are accumulated over the loan tenure and are due for payment only upon maturity of loan.

The financial assets at fair value through profit or loss of the Group relate to the Group's investments in short term financial instruments using cash on hand pending further financing and investment opportunities. The Group has disposed the investment in short term financial instruments in early 2017.

Other payables and accrued liabilities of the Group were lower at HK\$6.3 million as at 30 June 2017 as compared to HK\$7.3 million as at 31 December 2016 due to lower accrual of expenses following payment of most of the accrued expenses for FY2016 in HY2017.

#### Consolidated statements of cash flow

The Group's cash and cash equivalents stood at HK\$11.1 million as at 30 June 2017.

The Group had net cash generated from the operating activities of HK\$7.4 million in HY2017 due mainly to redemption of capital in AFS by one of the customers in HY2017.

The Group's net cash generated from investing activities in HY2017 relates mainly to the disposal of the Group's investment in short term financial instruments.

The Group's net cash used in financing activities of HK\$2.0 million in HY2017 relates to the payment of the first and final dividend in respect of FY2016.

Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

Not applicable as there was no forecast or prospect statement previously disclosed to the Company's shareholders.

10 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

Although the PRC economy may be showing signs of slowing down, the Directors believe that the PRC and HKSAR continue to present opportunities for the Group's Financing Business which is targeted at small and mid-sized companies. In light of the slow-down in the property market in Australia, the Group is cautious and remains vigilant in monitoring its existing loans and investments in Australia and will limit its loan portfolio exposure to customers in Australia to no more than 60% of the Group's total loan portfolio (in HK\$ terms) for risk management purposes.

The Directors are mindful of the current market sentiment and has been making effort to ensure that the Group's investment and credit risks is well managed. As the overall global economy continues to be challenging, the Directors will continue to be prudent in deploying capital as well as executing stringent due diligence for new investments in 2017.
